

Graham Tucker / Project Manager / North Atlanta

770-570-9962 / prograhamit@gmail.com

Summary

I am currently seeking a full-time position as a project manager with a medium or large size company within the North Atlanta area (or remotely). I am currently a project manager with experience as a software/web developer and in a senior position. With decades of experience and an outgoing personality, my best fit would be helping a team increase proficiency and productivity.

Work Experience

Project Manager, CoffeeAM

Freehome, GA September 2021 - Present

Leading a team of four and responsible for daily marketing efforts, I coordinated and helped create weekly promotions for four websites. I also used multiple programs to produce emails and relayed the results to the president of the company. My team also collaborated with outside stakeholders to refine the brand of the company and social media efforts. I was responsible for adjusting prices and discounts in Shopify and altering code to modify websites. Working with my team, we updated print labels and product packaging.

Project Manager / Marketing Department, Woodard Events

Woodstock, GA December 2015 - August 2022

I directed and supported a team with animation and video materials for promotional purposes, worked with designers on graphics for both web and print, and built a handful of dynamic sites using WordPress and HubSpot. We created instructional videos on how to use features in WordPress, HubSpot, and other programs. My team negotiated better prices for web hosting which in turn saved the company roughly \$325 a month. We incorporated a faster way to deliver content using databases and code to streamline sections of the site. This sped up productivity by almost 75% on a certain re-occurring task. Using SEO best practices and Google analytics, reported to stakeholders improvements made to website.

Web Developer, Inward Solutions

Alpharetta, GA April 2015 to December 2015

I was responsible for designing and customizing WordPress themes. I also set up client hosting and domain support, edited and created print work, and spoke with clients about edits for projects.

Web Developer, Stoneridge Group

Alpharetta, GA July 2013 to March 2015

I coded framework with HTML5, CSS3 and edited WordPress themes. I used multiple programs daily to generate fluid and mobile-friendly sites at a very fast pace. Working with other developers and designers I delivered fully customized WordPress sites and processed responsive email campaigns using 3rd parties like Mailchimp and Constant Contact.

Web Developer / Designer, SANUWAVE Health Inc.

Alpharetta, GA August 2007 to June 2013

I created Web sites using XHTML, HTML5, CSS and CSS3. I also utilized Analytics/Search Engine Optimization (SEO) for traffic data reporting. I was responsible for creating and editing magazine advertisements, print layout, and product graphics were a good portion of my responsibilities. I contributed to the strategy of marketing services and help lead the execution as well. I managed tasks and projects with vendors and provided vendor fulfillment/needs.

Prior Employment

Before SANUWAVE, I worked with Disney as a photographer, The Sanford Airport (SFB) as a gate agent, and the United States Marine Corps. In the military, I was trained for intelligence collection and as a radio operator. I served from 1997 until 2002, when I was [honorably discharged](#).

Software Used / Skills

- Podio, Asana, Wrike, Smartsheet, Slack, Google (docs, slides, sheets, gmail), MS Teams, Outlook, PPT
- ATOM.io, git, PHP, WordPress, HubSpot, HubL, JavaScript, Bootstrap, HTML, CSS and currently learning Dart

Education

- Google Project Management - Coursera, Certificate - November 2021
- Attending University of West Georgia in January, 2025 for BBA in Business Management
- May 2005 - Seminole State College: Associates of Science in Multimedia and Web Development
- August 2004 - December 2004 Served as Vice President of Digital Media Arts Club at Seminole State College
- January 2004 - May 2004 Served as Secretary of Digital Media Arts Club at Seminole State College

Community

I have contributed to several charities through employment with SANUWAVE, Disney and The Stoneridge Group. I also volunteered with WordCamp US, 2017, gave a talk on design and development at WordCamp Atlanta 2019. In 2020 I also spoke at a local meetup about drop-shipping and eCommerce. I supported a local 5k for a co-worker and walked with the ADA in "Walk Out Against Diabetes." As a part of the Disney team, I helped with the Special Olympics. I designed for the EPNC (East Prairie Nutrition Center), launched their site by setting up a hosting service, and wrote code for them as well.

Personal

I'm an outgoing, positive software guru who loves a challenge, good design, and photography. I have a lot of patience and think I am very approachable - always willing and happy to answer questions. I love a good joke but I always keep it professional. I have two amazing boys named Ryan and Reese and a fantastic wife, Robin who works full time for Cherokee County as a third grade teacher. If not behind a keyboard, you can find me in the kitchen or getting lost with my family in the north Georgia mountains.
